

## **Southern Cross Care Selects GoldCare for Residential and Community Care Data Management**

Box Hill, Victoria – February 1, 2008 - Campana Systems Pty Ltd., market leaders in healthcare management solutions, is pleased to announce that Southern Cross Care (Vic) has selected Campana's award-winning software, GoldCare, to provide the data management infrastructure for their community and residential care programs throughout regional Victoria.

GoldCare provides care professionals with a versatile healthcare management solution to manage and support the many aspects of residential, community and continuing care: client and employee data management, clinical administration, rostering, financials and reporting.

Southern Cross Care operates nine residential aged care facilities across Victoria. Its Community Services Division provides government funded care packages and community support services, including home care and personal care, out of six regional offices. Retirement Living and Lifestyle services are provided at eight locations.

Implementing GoldCare will provide Southern Cross Care with centralised access to consolidated information. Assessments, scheduling, reporting and other applications are integrated, which allows data stored in one component to be accessed from another, facilitating one-time data entry and quick data retrieval. This ensures data is readily accessible to support decisions regarding client care and organisational development.

“Having a data management system like GoldCare operating across the organisation will ensure all personnel are using the same information to deliver client services”, says Stephen Goodwin, Information and Communication Technology Manager at Southern Cross Care (Vic). “Our focus is delivering excellent service to our clients and residents; this system will be central to ensuring consistent quality outcomes for those in our care”.

“We’re excited that an organisation as respected as Southern Cross Care has recognised the strength of the GoldCare solution, and will employ it as an essential part of their healthcare information systems”, says Grant Roberts, President of Campana Systems.

Southern Cross Care (Vic) will roll out GoldCare across their Community Services, Residential Care and Lifestyle sites over the next six months.

### **About Southern Cross Care**

A highly respected provider of aged and community care services and retirement living options across metropolitan Melbourne and regional Victoria, Southern Cross Care (Vic) offers innovative, flexible and responsive services to meet the care needs and expectations of senior Victorians. A community organisation established in 1969, Southern Cross Care (Vic) is widely recognised for its service excellence and its deep commitment to caring. Each year, its 1,000 personnel and 300+ volunteers provide care and support to more than 5,000 older people to make a real difference to the quality of their lives.
